

2019 F-150 RAPTOR

OFF-ROAD OVERVIEW

This supplement is not intended to replace your vehicle Owner's Manual which contains more detailed information concerning the features of your vehicle, as well as important safety warnings designed to help reduce the risk of injury to you and your passengers. Please read your entire Owner's Manual carefully as you begin learning about your new vehicle and refer to the appropriate chapters when questions arise.

All information contained in this supplement was accurate at the time of publication. We reserve the right to change features, operation and/or functionality of any vehicle specification at any time. Your Ford dealer is the best source for the most current information. For detailed operating and safety information, please consult your Owner's Manual.

2019 F-150 RAPTOR OFF-ROAD FEATURES OVERVIEW

Trail Control – Overlay Mode Selection

Available In All Modes

Note: Trail Control function is not affected by Off Road Mode, AdvanceTrac or Electronic Locking Differential settings.

1. Button light illuminates
2. “Trail Control Ready” in information display
3. Audible tone
4. Trail Control light in LCD display illuminates and Trail Control icon on Off Road screen shows ‘Active’ when system is controlling vehicle:
 - Controls speed under 20 mph (31 km/h).
 - The System remains ‘armed’ between 20 and 42 mph (31 and 68 km/h) but will not control speed.
 - The system disengages above 42 mph (68 km/h), you must press the button again to re-engage.

Use extreme caution when using any device or feature that may take your attention off of the road. Your primary responsibility is the safe operation of the vehicle. Only use non-essential features and devices when it is safe to do so. Please refer to your Owner’s Manual and Raptor Supplement for further information, including important safety information.

† Never go through water of any depth faster than 40 mph (65 km/h). You must reduce your speed significantly when driving through water over 6 in (150 mm) in depth. Do not exceed a maximum depth of 32 in. (810 mm) and drive no faster than 4 mph (7 km/h) to avoid potential vehicle damage.
